

ILC Tas is coming to a place near you in Aug-Dec 2009.

ILC Tas (Independent Living Centre, Tasmania) is a free information and advisory service about assistive technology. Assistive technology is anything that can help you do a task. Solutions could involve equipment, changing a technique, using a service, handy hints or adapting something you can find around the home. ILC Tas is a non profit organisation funded by the Tasmanian and Australian Governments. ILC Tas does not sell equipment.

ILC Tas brings a selection of equipment to each display, including;

- Things to help you do household tasks
- Items to make dressing and personal care easier, and
- Specialised products for recreation and leisure.

You can request other equipment to be brought to a session. Please contact ILC Tas before the visit.

ILC Tas has an Occupational Therapist present at these visits. The Occupational Therapist can help you decide what you need. They offer information and advice tailored to your situation.

Please RSVP on 1300 885 886. Everyone is welcome to visit and ask questions. This is free of charge. Please contact ILC Tas on 1300 885 886 to make an appointment, join the mailing list or
